

Somerset County, NJ, sought to advance the County’s mission to be committed to excellence and innovation in public service by improving communication with citizens using email alerts to disseminate County information. GovDelivery® Email and Digital Subscription Management met the County’s need to communicate time-sensitive information to citizens quickly, efficiently, and in a cost-effective manner.

SOMERSET COUNTY’S NEEDS

1. Communicate proactively and cost-effectively with a large, diverse resident base using email.
2. Find a solution for communicating emergency information to residents quickly and effectively.
3. Allow for department-level administration of email subscription options while offering residents the ability to manage email subscriptions across the entire county government.
4. Provide email subscription service without adding additional staff or equipment.

SOLUTION

Somerset County selected GovDelivery, a web-based solution that monitors websites for content updates and automatically generates email alerts when changes are detected on designated webpages.

Web visitors click on links located throughout the site to register to receive specific email alerts.

“GovDelivery was a hit for Somerset County from day one.”

-Denise Coyle, Freeholder Director

“During emergencies, we send road and bridge closing/reopening bulletins to a combined list of subscribers from [Emergency Info and Road Closings] subscribers.”

-Linda VanZandt, Public Information Director
