

The United States Department of Commerce Bureau of Economic Analysis (BEA) is using email alerts to further its mission of “providing the most timely, relevant, and accurate economic accounts data in an objective and cost-effective manner.” GovDelivery® Email and Digital Subscription Management (EDSM) met BEA’s need to communicate time-sensitive information to citizens and other stakeholders quickly, efficiently, and in a cost-effective manner.

BEA’S NEEDS

1. Send critical updated economic information (such as GDP and Consumer Price Index) out to the public more quickly.
2. Support the Department’s mission by offering a variety of subscription options to provide website visitors more choices and easy access to specific, relevant information.

SOLUTION

BEA selected GovDelivery to meet its communication needs. GovDelivery EDSM is a web-based solution that monitors websites for content updates and automatically generates email alerts when changes are detected on designated webpages.

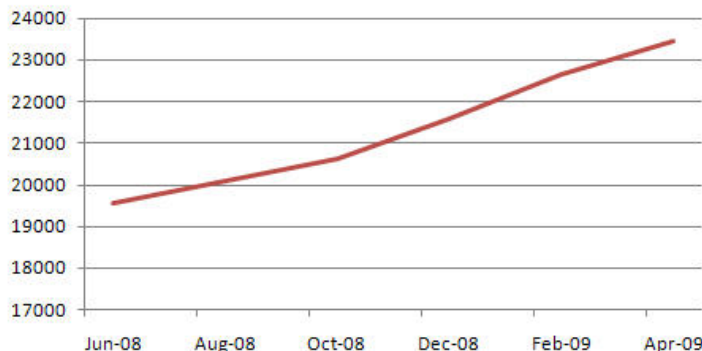

Web visitors click on links located throughout the site to register to receive specific email alerts on economic data.

BEA’s goal for its e-mail subscription service was to sign up 2,000 subscribers. That goal was surpassed 60 days after launching GovDelivery. Just over four years later, they have more than 23,000 subscribers.

RESULTS

BEA Subscriber Growth

Since launching GovDelivery in January 2005 BEA has:

- Registered **over 23,000 subscribers**.
- Sent nearly **2.4 million emails**.
- Incorporated subscription items on critical economic data including:
 - Gross Domestic Product
 - Personal Income
 - U.S. International Trade in Good and Services
 - Annual Industry Accounts
 - Travel and Tourism Satellite Accounts
