

Regional Transportation Commission looked to GovDelivery® Email and Digital Subscription Management to provide an economical and easy-to-implement solution to improve communication with riders about schedule, fare, and other issues that affect their trips.

RTC'S NEEDS

1. Replace the manual email list that needed constant attention with an automated email system.
2. Allow riders the ability to receive alerts via short messages.
3. Utilize email to communicate with the public as efficiently and effectively as possible.

SOLUTION

RTC selected GovDelivery, a web-based solution that monitors websites for content updates and automatically generates email alerts when changes are detected on designated webpages.

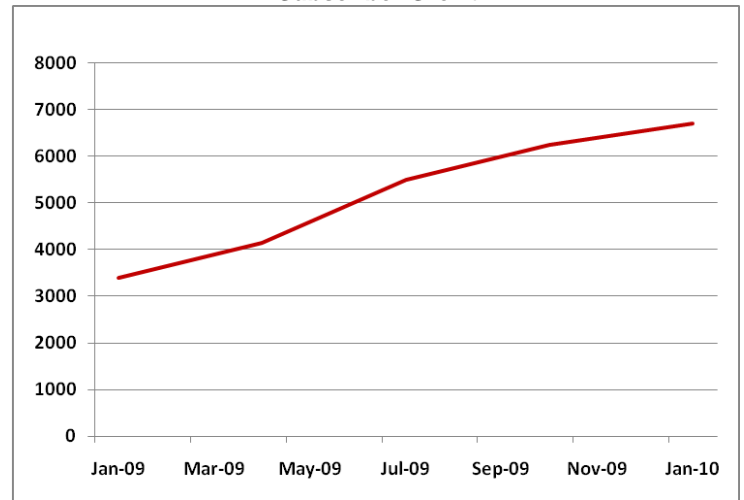

Web visitors click on links located throughout the site to register to receive specific email alerts.

“We are always working to provide information to the public as efficiently and effectively as possible. By moving to an electronic format, we can provide many more issues with more timely information for a fraction of the cost of a print newsletter.”

-Curtis Myles, Deputy General Manager, RTC

RESULTS

Subscriber Growth

Since launching GovDelivery in January 2004 RTC has:

- Signed up more than **6,700 subscribers**.
- Sent more than **1.13 million emails to riders**.
- Implemented updates for more than 120 specific topics.
- Incorporated subscription items including:
 - Finance Committee Meetings
 - Metropolitan Planning Projects
 - Schedule and route change information on more than 50 routes

Updated February 2010
