

Protecting, maintaining and improving the health of all Minnesotans

July 15, 2004

Members of the news media:

Subscribe to receive automatic e-mail notification of MDH news releases

The Minnesota Department of Health recently began implementing a Web-based subscription service that allows users to be notified by e-mail when new pages are added to certain parts of the MDH Web site. News releases are among the first documents available through this new service. We encourage all media to subscribe to this free service.

By subscribing, you will automatically receive an e-mail message shortly after a news release is placed on the MDH Web site. The e-mail message will include the title and first paragraph of the news release and a direct link to the complete release. *Please note that all MDH news releases are posted on our Web site as soon as they are publicly available.*

If you are currently receiving MDH news releases by e-mail, you do not need to subscribe. We will automatically add your e-mail address to the new service, and you will be notified when your subscription has been activated. (Please note that this will replace our current system of separately e-mailing news releases to select media.)

To subscribe to our news release subscription service:

- Go to www.health.state.mn.us (main page of the MDH Web site)
- Click on "Subscribe to News" (in left column)
- Enter your e-mail address and follow the instructions

We anticipate that our new system will be far more efficient than our current system, which is based primarily on fax distribution. We hope to eventually limit the faxing of news release to only those media that do not have e-mail accounts.

As time goes on, we will be adding additional types of documents—such as newsletters and reports—to this subscription service. You can subscribe to as few or as many documents as you prefer. You will be able to select your documents from a link on the front page of our Web site.

If you have any questions, please call Communications Director John Stieger, at 651-215-1301, or e-mail: john.stieger@health.state.mn.us
